/ MY PROJECTS

ANDROID APP FOR WATER DELIVERY ORDERS

I have developed a part of a project that deals with the cooperation among back end, data bases, android app and manager for processing the order.

WEB APP FOR BIKER'S BOX

I've developed a web-site using Bootstrap. The "gallery" page is generated by script, that reads the files from the folder of gallery and brings them out.
<http://babayki.od.ua>

VISUAL DESIGN OF GOODS ORDERING

I've written a script for visual design of goods ordering using Angular JS
<http://twins.ho.ua/order/>

A PRACTICAL TASK

The site was developed using HTML5, CSS3, Bootstrap, fullpage (Jquery)
<http://websea.com.ua/>

A PRACTICAL TASK

A PSD layout setting, performing by HTML, CSS, Bootstrap, Jquery
<http://twins.ho.ua/test>

A WEB-SITE FOR "STIHIYA" DISCO-BAR

A site performed using HTML, CSS, Bootstrap, Jquery <http://stihiya.in.ua>
