Objective:

Work with a friendly team of professionals on interesting projects. Develop myself as Front-end developer and improve my tech and software skills.

Summary:

Experience in the development and layout of sites about 1 year. Now I'm studying in depth the JavaScript/jQuery and PHP. I really like the web development and every day I improve my knowledge in this. I have good analytical skills. Easy learning. Work well in a team.

Skills:

- Frontend: HTML+CSS, JavaScript;
- Preprocessors: Less;
- Libraries: jQuery, Bootstrap;
- Backend: PHP, MySQL, WordPress;
- Tools: Gulp, Git;
- Techniques: responsive web design, cross-browser compatibility, pixel-perfect;

Work experience:

[Mr. OWL](#), Junior web developer (remote) (May 2016 to present)
